# TELECOM PRODUCTS

VISIT [WWW.PITTSBURGHPIPE.COM](http://WWW.PITTSBURGHPIPE.COM) OR CALL 800-325-2653

Pittsburgh Pipe is a leading supplier of High Density Polyethylene (HDPE) Innerduct to the telecom, electrical and water/sewer industries. We are one of the largest multi-location stocking distributors with an extensive inventory for immediate nationwide shipment or customer pickup.

**PITTSBURGH PIPE'S INDUSTRY REPUTATION OF SUPPLYING  
THE RIGHT PIPE, RIGHT ON TIME,  
IS WHAT WE DELIVER EVERY DAY.**

**With many products available and in stock at all times, we will beat the competition with always ready to ship products for all your telecom needs.**

### **INNERDUCT**

The innerduct we supply is often used in electrical and telecommunications systems to protect underground cables from damage. Its use under roadways and bodies of water allows trenchless installation of underground lines and offers significant cost savings. All common sizes are in stock and available for immediate pickup or shipment, including Futurepath and Microduct.

### **PVC**

Whether you are doing simple drop work or complicated duct banks, Pittsburgh Pipe can provide the complete PVC pipe and fittings package to complete your project. We have supplied miles of PVC pipe for telecom and electrical projects from Bangor, ME to San Francisco, CA. We have the expertise to help you on military installation, power transmission or distribution jobs, I.T.S. projects, DOT new builds or road moves.

### **RIGID CONDUIT**

Our team knows just how important it is for you to have the right rigid conduit for your project. Whether you need Galvanized Rigid Conduit, (GRC), Electrical Metallic Tubing (EMT), or Intermediate Metal Conduit (IMC), we have the products to meet your every need.

### **HANDHOLES**

Pittsburgh Pipe is one of the largest stocking distributors of handholes. We supply almost any size or configuration you require. We work with telephone and cable providers, Rural Utility Service (RUS), owners, engineering firms, contracting firms, and railroads to ensure your requirements are met on time and within budget.

### **SPLIT AND TABBED STEEL CASING**

Repair and/or relocate Telecom and Electrical HDPE cabling without disruption of service by using our Split/Tabbed Steel Casing Pipe.
