

PITTSBURGH PIPE

SINCE 1977

FIN PILES

Explore Your Pile Alternatives

Features/Services:

When working on marine or dock projects, you want a piling product that not only does the job but is affordable. Our fin piles are a cost-effective alternative to conventional piles. Thanks to their unique finned design, these piles create a firm anchor in the ground. As a result, fin piles have large tensile capacity and resist compressive forces. This allows them to handle significantly greater loads than other types of piles.

About Pittsburgh Pipe

Since 1977, Pittsburgh Pipe has been America's supplier of pipes and construction materials for a wide range of industries. Our reputation for rigid quality standards, exceptional customer service, and industry knowledge has taken off with contractors across the country.

THE RIGHT PIPE. RIGHT ON TIME.
